

...Nurture the land ... nourish the people ...

2010 ... FOOD, FARMING & HEALTH

- > Sustainable vs profitable farming?
- > Food: enough for all or a free-for-all?
- > Are we eating away at our future?

Discover new insights into how we produce food – and the food that we produce – at this fascinating one-day forum being held near Warragul on August 2.

We will explore what it takes to build and maintain health communities and sustainable food systems. AND KEYNOTE SPEAKERS to challenge boundaries

Prof MARK LAWRENCE, Deakin University

- Authorities are reshaping food recommendations by taking into account how we farm

Prof MARGARET ALSTON OAM, Monash University

- Reshaping public health for the future

**Dr BRAD RIDOUTT, principal research scientist
CSIRO Sustainable Ecosystems**

- Lifecycle-based sustainability assessment for food

Last year's inaugural Food, Farming & Health was a unique mix of minds, with input from farmers, farm consultants, health professionals, land use planners, natural resources experts and leading policy-makers. This year, large and small-scale farmers will discuss what it takes to produce food sustainably and profitably. Share your tales with other attendees, enjoy networking opportunities, and a delicious locally-sourced lunch and forum notes, for only \$40.

WHEN? August 2, 2010. From 9.30am to 4pm.

WHERE? Lardner Park, south of Warragul. Only an hour from Melbourne. Take Warragul turnoff from Princes Hwy; turn right at Lardners Track and right into Burnt Store Rd. Enter Gate 3. Contacts: Jenny O'Sullivan 5663 2386 or Sue Webster 0402 267 802. Register at <http://agribusinessgippsland.com.au>
